
PHONE AGREEMENT

Numerous studies have demonstrated how the use of hand-held cell phones while driving pose a significant safety risk to motorists, their passengers and others on the road.

In fact, according the National Highway Traffic Safety Administration (NHTSA), in 2008, nearly 6,000 people died in crashes involving a distracted driver.

I PLEDGE THAT I WILL:

- No longer text or talk on a hand-held phone while operating a vehicle
- Pull over to a safe place if a call must be made or received while driving
- Lead by example to my family, friends and colleagues
